## FILTER

### Apresentação

A ORIGINAL FILTER é uma empresa de autopeças, especializada em filtros automotivos, agrícolas, industriais e fora-de-estrada, e oferece uma linha completa de filtros de reposição.

Nosso centro de pesquisa e desenvolvimento está sempre atualizado com o mercado para proporcionar excelência em qualidade e abrangência em aplicação de filtros para os principais e atuais fabricantes mundiais de veículos.

Nossos filtros são testados em modernos laboratórios,

com profissionais qualificados e experientes, com competência para a fabricação desses filtros em território nacional e internacional.

Estamos em constante pesquisa de novos produtos para aumentar nossa competitividade no mercado, mantendo a qualidade de acordo com os padrões originais exigidos pelos fabricantes mundiais de veículos.

Nossas instalações estão situadas na cidade de Cotia, junto às principais rodovias e rodoanel viário; um ponto estratégico com a finalidade de proporcionar fácil distribuição dos nossos produtos "ORIGINAL FILTER".

Nosso estoque permite rápido atendimento no processo comercial e logístico, atendendo às necessidades do mercado com qualidade, competitividade, eficiência e velocidade.

Contamos com colaboradores de larga experiência no mercado de filtros, para que você possa comprar nossos produtos com muita informação, de forma descomplicada, rápida e tranquila.

Faça bons negócios com a ORIGINAL FILTER!

Missão: " Ser referência em qualidade de filtragem obtendo o reconhecimento de aplicadores e clientes " Visão: " Aprimoramento contínuo em inovação e tecnologia "

Valor: " Ética, com fornecedores e colaboradores.

Efetividade, com qualidade de filtração.

Transparência, com clientes e legislações governamentais.

Competência no atendimento e práticas de serviços.

## Garantia Original Filter

A Original Filter garante a utilização dos seus filtros contra possíveis defeitos de fabricação, desde que armazenados corretamente em locais isentos de umidade e poeira, mantidos na sua embalagem original, instalados por profissional treinado e sua aplicação feita conforme especificação em catálogos ou manuais do fabricante do veículo.

A Original Filter se responsabiliza percentualmente ao custo do reparo necessário para devolver a máquina à sua condição anterior ao momento da avaria, sendo devidamente comprovado que o problema ocorreu devido a um possível defeito de fabricação do filtro. Esta garantia cobre apenas materiais e mão de obra, não sendo aplicável a qualquer filtro permanente que tenha sido modificado ou alterado de alguma forma, ou que tenha sido submetido à utilização inadequada, excesso de calor, exposição à radiação ultravioleta ou instalação indevida. Dessa forma o cliente que desmontar o filtro anulará esta garantia.

A presente garantia não cobre nenhum custo relativo à desmontagem ou substituição de produtos que estejam soldados ou afixados de alguma forma em veículos, máquinas, equipamentos e sistemas. Esta garantia não cobre danos causados por agentes externos de qualquer natureza, incluindo acidentes, falhas com energia elétrica, uso em desacordo com as especificações e instruções do fabricante, negligência, modificações, reparos e erros de instalação ou testes.

No ato da instalação, se o filtro apresentar defeito, desligue imediatamente o motor, máquina, equipamento ou sistema e entre em contato com a assistência técnica Original Filter ou um representante em sua região. Além dessa garantia por escrito, não há quaisquer outras garantias expressas, implícitas ou de outra forma em relação à comercialização ou adequação deste produto para uso particular.

*The Original Filter warrants its products against manufacturing defects, if properly installed by a qualified professional, it is stored properly, free from moisture, dust and sunlight.*

*Las órdenes de Original Filter de sus productos contra defectos de fabricación, si bien instalado por un profesional calificado, que se almacena correctamente, libre de humedad, el polvo y la luz del sol.*

## Filtro de Ar

O filtro de ar é um dispositivo do sistema de admissão de ar do motor que foi criado para reter impurezas do ar que segue para dentro do mesmo. O filtro de ar contém um elemento filtrante, geralmente de papel especial ou uma malha de aço, para impedir a entrada de material particulado, causador de danos ao motor.

### Vantagens do filtro de ar Original Filter:

- Alta confiabilidade, eficiência e desempenho.
- Economia de combustível e provedor de força para o motor pela entrada de ar limpo.
- Cobertura interna e externa fabricadas com tecnologia resistente à pressão e corrosão.
- Elemento filtrante de longa durabilidade conforme as normas definidas pelo fabricante do veículo.
- Estruturação fixada com cola quente, protegendo a forma do elemento filtrante.
- Propriedades impermeáveis superando a expectativa.
- Controle de qualidade e testes laboratoriais em todo o processo de produção.
- Embalagens de alta qualidade.

## Filtro Hidráulico

Em todo o sistema hidráulico, a vazão, a pressão e a calibragem são pontos críticos relacionados às propriedades do fluido dessa relação. Nenhum esforço será inútil no sentido de prevenir a queda da qualidade do óleo, removendo todos os contaminantes que podem agir como catalisadores na degeneração desse óleo.

Dessa forma, o objetivo dos filtros hidráulicos Original Filter é melhorar os níveis de limpeza do fluido do sistema, proporcionando um melhor desempenho na partida a frio, atendendo às expectativas para os intervalos de manutenção e mantendo a limpeza do sistema por meio de uma filtragem correta, o que é essencial para garantir a máxima eficiência e confiabilidade.

### Vantagens do filtro hidráulico Original Filter:

- Garante a eficiência da filtragem para proteção contra queda de pressão, fluxo de fadiga e teste de ruptura hidrostática.
- Proporciona um nível adequado de limpeza do óleo em espaços críticos sobre os componentes do fluxo de fluido hidráulico.
- Melhora do desempenho na partida a frio atendendo às expectativas para os intervalos de manutenção.
- Alta confiabilidade, eficiência e desempenho.
- Embalagens de alta qualidade.

## Filtro de Óleo

O filtro para óleo lubrificante da Original Filter tem a função de separar os resíduos que contaminam o óleo, tais como pó, partículas metálicas provenientes da fricção das peças do motor, óleo carbonizado e fuligem derivados da combustão. É de suma importância que todo o processo de filtragem seja realizado sem influenciar na composição química do óleo lubrificante.

A correta substituição do filtro do óleo lubrificante, como também a do próprio óleo lubrificante deve ser feita criteriosamente nos intervalos prescritos nos manuais de manutenção de cada veículo. Caso esse procedimento não seja feito, o lubrificante receberá partículas contaminadas que acarretará no mal funcionamento do motor, diminuindo assim a sua vida útil.

### Vantagens do filtro de óleo Original Filter:

- Segurança e confiabilidade na filtração do óleo lubrificante.
- O elemento filtrante de alta eficiência retém partículas como carbono e fuligem, resultantes da combustão, atrito e pressão. Componentes resistentes à pressão e corrosão.
- Propriedades impermeáveis acima do padrão na ondulação, adesão e pontos de junta do filtro.
- Controle de qualidade e testes laboratoriais em todo processo de produção.
- Alta confiabilidade, eficiência e desempenho.
- Embalagens de alta qualidade.

## Filtro de Combustível

O filtro de combustível Original Filter tem a função de capturar contaminantes existentes como particulados, ferrugem, substâncias contaminantes e água proporcionando maior vida útil dos bicos injetores, garantindo assim maior capacidade de filtragem.

### Vantagens do filtro de combustível Original Filter:

- Proporciona um combustível limpo, de fácil combustão e que permite alta potência ao motor.
- Controle de qualidade e testes laboratoriais durante o processo de produção.
- Componentes resistentes à pressão e corrosão.
- Elementos filtrantes especiais de combustível de alto desempenho que retêm água e partículas indesejáveis no combustível.
- Alta confiabilidade, eficiência e desempenho.
- Embalagens de alta qualidade.

## IMPORTANTE:

Efetuar sempre a troca dos filtros de seu veículo no tempo correto antes de sua total saturação, para um melhor desempenho de seu veículo.

É importante observar no manual do fabricante do veículo o tempo correto para efetuar essa troca de filtro de acordo com sua função.
